Music Ensembles are considered as Pseudonyms for respective Right Holders who are handling their rights and royalties based on contractual agreements between the ensemble members. Every Music Ensemble is handled as a unique Right Holder. When the Ensemble members wish to receive royalties as separate entities, then every member has to register for an independent royalty distribution account. Ensembles have to register all their members as RadioPro Ltd CMO members, however they may choose to appear as an Ensemble and not as individuals on our public member list. We do not accept

Ensembles which include members registered with other CMOs.
